

Student Feedback Analysis 2023-24

IQAC has made it a tradition to mandatorily collect feedback from students in each session through structured feedback forms. The task is completed via Feedback Committee. During the session, the committee distributes and collects the filled feedback forms and submits it to IQAC. Then, IQAC analyses and interprets the data and strives for taking further actions as per feedback report

Objective:

The objective of taking feedback is to determine the satisfaction levels of various students of the college and identifies scope for further improvement.

Method of Feedback:

Collection of Data:

The feedback is collected manually by circulating the feedback forms among students.

Sampling:

Efforts are being made to collect data through extensive sampling. Yet in some cases, it becomes difficult to approach to each student. So, a set of criteria is established for taking sample.

Students:

It is being assured that more than 70% of college students fill the feedback forms. Equal representation is given to all streams and proportionate stratified sampling is used for collecting feedback from students. The analysis of the students' feedback clearly depicts that they are well satisfied with the curriculum and teaching method. In this Year total **608** feedback form collected from students that include BCA, BSc.IT and MSc. IT students.
